Activities:	Biodiversity surveys; Carbon and water surveys; Soil sampling; Land use surveys							
Risk	Initial severity	Initial likelihood	Initial risk	Risk control measures inc. PPE	Controlled likelihood	Controlled risk		
Slip, Trips and Falls	2	2	4	Ensure students are wearing appropriate footwear. Warn students verbally of exposed rabbit holes, badger setts and hidden cliffs on footpaths. Students advised to keep to designated footpaths. Avoid extended working on steep slopes.	1	2		
Falling timber	3	1	3	No activity to take place in areas where controlled felling is taking place. Activity should cease during storm and lightening conditions.	1	3		
Disorientation and separation	1	2	2	Identify key navigation points with students. Minimise the area over which students are working. Students to stick to designated footpaths when moving through the woodland. Wherever possible, students to carry a map and have GPS capability on their phones. Students to have emergency phone number for a member of their staff with them.	1	1		
Collision with trees	2	2	4	Students to take care around low hanging branches. Students to stick to footpaths when moving through the woodland.	1	2		
Details of students whose particular needs heighten their risk:								
Local Hospital Details								

Severity score measured on 1 - 3 scale. Likelihood score measured on 1 - 3 scale. Total risk calculated by multiplying severity score by likelihood score. Any activity with a total risk score of 6 or more will not take place.
