

Mitigation Strategy	None evident	Limited evidence	Extensive evidence
Electric vehicle charging station			
Designated cycle lanes			
Green walls / green roofs			
Pedestrian-friendly measures - wide pavements			
- interconnected routes through town			
- 20mph speed limits on roads			
New and more energy efficient housing choices			
Solar panels / Wind turbines on buildings			
Compact and interconnected design ("15 minute city")			
Extensive planting or green spaces			
Local food / low food miles initiatives			
Urban agriculture			

Adaptation Strategy	None evident	Limited evidence	Extensive evidence
Drought-resistant planting			
Areas of shade / tree canopy			
Reflective surfaces used on buildings			
Flood defences (if applicable)			
Urban zoning of critical infrastructure away from high risk areas			
Managed flooding in lower floors of buildings (if applicable)			
Rainwater harvesting schemes			
Personal safety / Public information campaigns			
Retrofitting / Upgrade to water pipelines and drains
