

Air pollutant survey (lichen)

Carry out this survey across a number of trees in an area. One should score the % lichen cover at head height where possible to ensure comparable results.

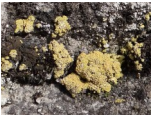

Tree number		Grid reference		Species				
					Aspect / coverage score 1 = low, 3 = high			
Lichen name					N	E	S	W
Nitrogen tolerant		<i>Punctelia subrudecta</i>						
		<i>Xanthoria parietina</i>						
		<i>Arthonia radiata</i>						
		<i>Physcia adscendens</i>						
		<i>Candelariella reflexa</i>						
	Other:							
Nitrogen sensitive		<i>Usnea sp.</i>						
		<i>Evernia prunastri</i>						
		<i>Bryoria sp.</i>						
		<i>Sphaerophorus globosus</i>						
		<i>Ochrolechia androgyna</i>						
	Other:
