

1. Rank the following effects of climate change according to how vulnerable you feel [place] is.
1 = low level of vulnerability 5 = high level of vulnerability

	Localised flooding caused by intense rain		Wildfires
	Sickness caused by extreme heat		Infrastructure damage caused by high winds
	Loss of habitat and plant/animal species		

2. Which area of [place] do you feel is most vulnerable to the effects of climate change and why?

3. I feel confident that [place] has adaptations in place to help it deal with the effects of a changing climate.

	strongly agree		agree		neither		disagree		strongly disagree		don't know
----------------------	----------------	----------------------	-------	----------------------	---------	----------------------	----------	----------------------	-------------------	----------------------	------------

4. Which of the following would you like to see more of in [place]? (tick as many as necessary)

☐	Shaded walkways/pavement	☐	Solar farms/wind turbines	☐	Improved drainage systems
☐	Retrofitted reflective roofs	☐	Public 'cool hubs'	☐	Rainwater harvesting system
☐	Wildlife migration corridors	☐	Drought tolerant planting	☐	Public advice programmes

5. Choose up to three words that describe your feeling about your future life lived in [place] with regards to climate change.
