

1. Choose up to three words that describe the current state of the river with regards to management and vulnerability to flooding.

2. Which of the following flooding issues have you witnessed or been aware of? (tick as many as necessary)

☐ River bank collapse	☐ Fallen/'drunken' trees	☐ Bank overtopping
☐ Sediment dumps on land	☐ Damage to roads/pavements	☐ Soil erosion in gardens/parks
☐ Damage to buildings	☐ Unaffordable insurance	☐ None of these

3. Rank the following flood management considerations according to their importance to you.
1 = least important 5 = most important

☐ Unrestricted access to the river and banks	☐ Use of natural materials/appearance
☐ Retaining/creating wildlife habitats	☐ Low ongoing maintenance costs
☐ Uninterrupted views of the river	

4. The need for river flood management in [place] outweighs other local issues.

☐ strongly agree	☐ agree	☐ neither	☐ disagree	☐ strongly disagree	☐ don't know
---	--------------------------------	----------------------------------	-----------------------------------	--	-------------------------------------

5. Which area of [place] should be prioritised for flood management and why?
