

1. [Place] is somewhere that is freely and easily accessible to all.

|                                         |                                |                                  |                                   |                                            |                                     |
|-----------------------------------------|--------------------------------|----------------------------------|-----------------------------------|--------------------------------------------|-------------------------------------|
| <input type="checkbox"/> strongly agree | <input type="checkbox"/> agree | <input type="checkbox"/> neither | <input type="checkbox"/> disagree | <input type="checkbox"/> strongly disagree | <input type="checkbox"/> don't know |
|-----------------------------------------|--------------------------------|----------------------------------|-----------------------------------|--------------------------------------------|-------------------------------------|

2. Choose up to three areas of [place] that you would describe as most accessible.

|  |  |  |
|--|--|--|
|  |  |  |
|--|--|--|

3. Which of the following accessibility aids have you noticed in [place]? (tick as many as necessary)

|                                             |                                                 |                                                    |
|---------------------------------------------|-------------------------------------------------|----------------------------------------------------|
| <input type="checkbox"/> Grab rails         | <input type="checkbox"/> Benches/resting points | <input type="checkbox"/> Mobility scooter hire     |
| <input type="checkbox"/> Dropped kerbs      | <input type="checkbox"/> Tactile paving         | <input type="checkbox"/> Step free building access |
| <input type="checkbox"/> Accessible parking | <input type="checkbox"/> Wide paving/doorways   | <input type="checkbox"/> Automatic doors           |

4. Rank the following accessibility challenges according to how significant they are in [place].

1 = least significant      5 = most significant

|                                                        |                                               |
|--------------------------------------------------------|-----------------------------------------------|
| <input type="checkbox"/> Slopes and steps              | <input type="checkbox"/> Narrow pavements     |
| <input type="checkbox"/> Fast traffic                  | <input type="checkbox"/> Poor paving surfaces |
| <input type="checkbox"/> Few safe road crossing points |                                               |

5. If you could do one thing to make [place] more accessible, what would it be and why?
