Activities:	Soil sampling; Field Sketches; Land use surveys							
Risk	Initial severity	Initial likelihood	Initial risk	Risk control measures inc. PPE	Controlled likelihood	Controlled risk		
Injury from farm machinery	3	1	3	Students to be made aware of any farm machinery on the move and wait for it to pass them before continuing. Students should never approach an idle piece of farm machinery.	1	3		
Injury from farm animals	2	1	2	Students advised not to approach farm animals. Students to minimise noise levels around livestock. Students should never attempt to feed farm animals.	1	2		
Slips, trips and falls	2	2	4	Students to keep to designated work areas and footpaths wherever possible. Students to wear appropriate footwear. Special care to be taken around ploughed furrows.	1	2		
Chemical exposure	3	1	3	Plan visit around a time when no spraying is due to take place. Students to wear gloves when handling chemically treated farm soils.	1	3		
Details of students whose particular needs heighten their risk:								
Local Hospital Details								

Severity score measured on 1 - 3 scale. Likelihood score measured on 1 - 3 scale. Total risk calculated by multiplying severity score by likelihood score. Any activity with a total risk score of 6 or more will not take place.
